Information Request D.T.E. 1-13

- Q. Please refer to section three on page three of the Precedent Agreement. Explain how the receipt and delivery points were selected.
- A. First, the Company and Tennessee identified all existing Boston Gas city gates with existing available capacity (i.e. those not requiring additional capital expenditures to Tennessee and cost to the Company) and allocated specific volumes among the resulting city gates as reflected in the Precedent Agreement. The balance was allocated to Tennessee's interconnect with Algonquin Gas Transmission Co. at Mendon, MA.
